PROJECT 100 / MUSCLE FOCUS

Day 1 / Chest, shoulders + triceps

Six band exercises / planned sets shown per exercise

1. Supported single-arm chest press

2 planned sets / 8-12 each side

START / handle beside chest | FINISH / controlled press

SETUP / Stable box; rear anchor near chest height.

MOVE / Press forward without leaning or twisting.

RETURN / Stop before elbow lock; return within a comfortable arc.

MAIN / RED
Pectoralis major: moves the upper arm forward and across the chest.

SECONDARY / BLUE
Triceps extend the elbow; anterior deltoid assists. Scapular muscles guide the shoulder blade.

SUPPORT / GREEN
Trunk muscles resist rotation; the box and planted feet stabilize the pelvis and legs.

RESISTANCE BANDS

2. Single-arm side-line chest and shoulder control

1 planned set / 8-12 controlled repetitions

POSITION A | POSITION B

SETUP / Stand in a staggered base with one side-line grip beside the shoulder.

MOVE / Control the working arm while the torso and free arm change position.

RETURN / Return slowly without turning the grip into a separate wrist attachment.

MAIN / RED
Pectoralis major and front deltoid control the working upper arm against the side-rear line.

SECONDARY / BLUE
Shoulder, elbow and forearm muscles control the shown arm path and retained grip.

SUPPORT / GREEN
Trunk and hip muscles steady the shown support contacts.

RESISTANCE BANDS

3. Standing shared-grip low-front arm raise with torso hinge

1 planned set / 8-12 controlled repetitions

POSITION A | POSITION B

SETUP / Hold the shared low-front grip with both hands; knees softly bent.

MOVE / Raise the hands forward as the torso returns toward upright.

RETURN / Lower the grip slowly as the torso hinges forward.

MAIN / RED
Front deltoids guide the arm raise; hip extensors help bring the torso toward upright.

SECONDARY / BLUE
Triceps controls the extended elbows; forearm muscles maintain the shared grip.

SUPPORT / GREEN
Trunk muscles steady the spine and the planted feet support the stance.

RESISTANCE BANDS

Day 1 / Chest, shoulders + triceps

Six band exercises / planned sets shown per exercise

4. Floor-kneeling alternating low-side arm opening

1 planned set / 8-12 controlled repetitions

POSITION A | POSITION B

SETUP / Kneel on the floor with one handle on each independent low-side line.

MOVE / Raise one arm diagonally while the other remains lower; then change sides.

RETURN / Lower the raised arm slowly without joining the circuits.

MAIN / RED
Deltoid muscles raise and control the active upper arm.

SECONDARY / BLUE
Shoulder, elbow and forearm muscles control the shown arm path and retained grip.

SUPPORT / GREEN
Trunk and hip muscles steady the shown support contacts.

RESISTANCE BANDS

5. Seated straight-bar pressdown

2 planned sets / 8-12

START / elbows bent | FINISH / soft elbow extension

SETUP / Stable box; high front line and straight bar.

MOVE / Extend the elbows while keeping upper arms nearly still.

RETURN / Bend the elbows slowly; keep the bar clear of the face.

MAIN / RED
Triceps brachii: straightens the elbow.

SECONDARY / BLUE
Forearm muscles steady the grip and wrist; shoulder muscles hold the upper arms beside the torso.

SUPPORT / GREEN
Trunk muscles hold a quiet seated posture; both feet and the box provide support.

RESISTANCE BANDS

6. Standing shared-handle overhead extension

1 planned set / 8-12 controlled repetitions

START / handle behind head | FINISH / handle overhead

SETUP / Both hands share one handle; two tubes run to low rear.

MOVE / Extend both elbows to move the shared handle overhead.

RETURN / Bend both elbows; return the handle behind the head.

MAIN / RED
Triceps brachii extends both elbows as the shared handle moves overhead.

SECONDARY / BLUE
Shoulder muscles control upper-arm position; forearm muscles hold the shared grip.

SUPPORT / GREEN
Trunk and hip stabilizers maintain the standing posture. Both feet form the base in the illustrated version.

RESISTANCE BANDS

PROJECT 100 / MUSCLE FOCUS

Day 2 / Legs, hips + core

Six band exercises / planned sets shown per exercise

1. Standing shoulder bar squat bow

2 planned sets / 8-12 controlled repetitions

POSITION A POSITION B

SETUP / Standing with shoulder-braced bar; knees flex and torso bows

MOVE / Hands retain bar; knee bend and torso bow move bar

RETURN / Return along the same handle path under control.

MAIN / RED
Quadriceps and hip extensors contribute to knee/hip extension; trunk muscles control the bow.

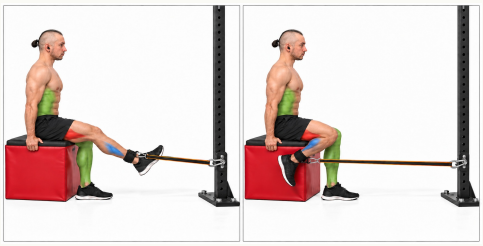

SECONDARY / BLUE
Shoulder and arm muscles stabilize the shoulder-level bar.

SUPPORT / GREEN
Trunk control and the floor or box contacts shown.

RESISTANCE BANDS

2. Seated single-leg band curl

2 planned sets / 8-12 each side

START / heel forward FINISH / heel drawn back

SETUP / Stable box; low front line and approved ankle cuff.

MOVE / Draw the heel back by bending the knee.

RETURN / Return slowly; keep the heel path clear of the box.

MAIN / RED
Hamstrings bend the knee, drawing the heel back.

SECONDARY / BLUE
Gastrocnemius can assist knee flexion. Ankle-positioning muscles hold the foot position; hip muscles keep the thigh aligned.

SUPPORT / GREEN
box, opposite planted foot and trunk muscles steady the pelvis. The working thigh stays supported.

RESISTANCE BANDS

3. Low back bar torso bow

1 planned set / 8-12 controlled repetitions

POSITION A POSITION B

SETUP / Standing hip hinge; padded bar behind low back

MOVE / Bar held behind low back; torso hinges

RETURN / Return along the same handle path under control.

MAIN / RED
Hip and spinal muscles control trunk inclination and return; the visible brace location changes how the line acts on the torso.

SECONDARY / BLUE
Abdominal muscles control trunk position; shoulder and arm muscles maintain the attachment or grip.

SUPPORT / GREEN
Trunk control and the floor or box contacts shown.

RESISTANCE BANDS

Day 2 / Legs, hips + core

Six band exercises / planned sets shown per exercise

4. Low-squat high-front draw with lateral weight shift

1 planned set / 8-12 controlled repetitions

POSITION A POSITION B

SETUP / Take a low squat with both feet planted; hold the shared high-front grips.

MOVE / Shift the low base sideways while controlling the shared grip.

RETURN / Return through the centre without jerking the line.

MAIN / RED
Quadriceps and hip extensors control the low squat.

SECONDARY / BLUE
Hip adductors guide the lateral transfer; forearm and shoulder muscles control the grips.

SUPPORT / GREEN
Trunk muscles steady the torso over the planted feet.

RESISTANCE BANDS

5. Shared-grip side-line anti-rotation reach

1 planned set / 8-12 controlled repetitions

POSITION A POSITION B

SETUP / Stand with both hands on one side-line grip beside the chest.

MOVE / Reach forward while keeping the torso facing ahead.

RETURN / Bring the hands toward the chest slowly without turning toward the attachment.

MAIN / RED
Abdominal wall and obliques resist rotation as the hands reach away from the chest.

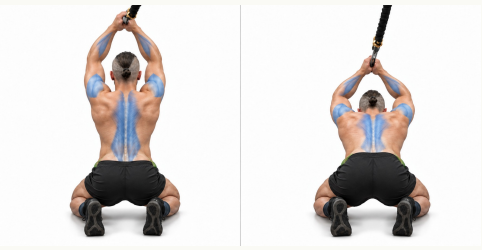

SECONDARY / BLUE
Shoulder, forearm and postural muscles guide the shown grip and torso position.

SUPPORT / GREEN
Hip muscles and the shown support contacts steady the base.

RESISTANCE BANDS

6. Floor-kneeling high-line torso fold

1 planned set / 8-12 controlled repetitions

POSITION A POSITION B

SETUP / Kneel on the floor with both hands on the high-front grip.

MOVE / Fold the torso forward while controlling the overhead grip.

RETURN / Raise the torso and hands slowly along the same line.

MAIN / RED
Abdominal muscles contribute to forward torso folding and control; front muscles may be hidden in the rear view.

SECONDARY / BLUE
Shoulder, forearm and spinal muscles control the retained line and torso position.

SUPPORT / GREEN
Hip muscles and the shown floor or box contacts steady the base.

RESISTANCE BANDS

PROJECT 100 / MUSCLE FOCUS

Day 3 / Back, rear delts + arms

Six band exercises / planned sets shown per exercise

1. PLYOSOFT box-supported one-arm row

2 planned sets / 8-12 each side

START / softly extended arm | FINISH / controlled pull

SETUP / Stable box; one handle on a front line near hand height.

MOVE / Draw the elbow toward the lower ribs without twisting.

RETURN / Lower slowly to a softly extended arm.

MAIN / RED
Latissimus dorsi: draws the upper arm back toward the trunk.

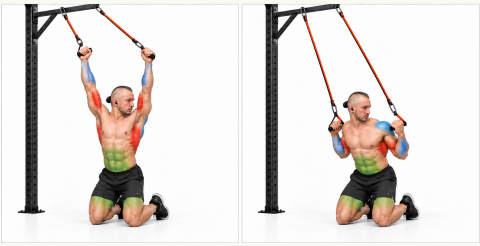

SECONDARY / BLUE
Rhomboids and middle trapezius control the shoulder blade; rear deltoid and elbow flexors assist the pull.

SUPPORT / GREEN
Abdominals and spinal stabilizers resist rotation. Hips, thighs and ankle muscles steady both feet; the other arm supports the torso.

RESISTANCE BANDS

2. Floor-kneeling high-front paired draw

2 planned sets / 8-12 controlled repetitions

START / arms reaching up | FINISH / handles near shoulders

SETUP / Both knees on the floor; two handles from high front.

MOVE / Draw handles toward shoulders as the upper arms descend.

RETURN / Return hands up/front under control.

MAIN / RED
Elbow flexors and latissimus dorsi contribute as the elbows bend and upper arms draw down toward the trunk.

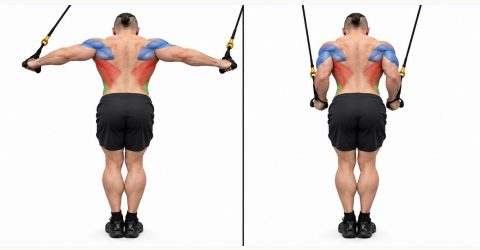

SECONDARY / BLUE
Scapular muscles and rear shoulder muscles guide the arm path; forearm muscles hold the handles.

SUPPORT / GREEN
Abdominal, spinal and hip muscles stabilize the kneeling trunk. Both knees and lower legs form the floor base.

RESISTANCE BANDS

3. Standing inclined paired high-rear arm sweep

1 planned set / 8-12 controlled repetitions

POSITION A | POSITION B

SETUP / Stand inclined with one handle on each independent high-rear line.

MOVE / Guide the arms from the wide position down toward the hips.

RETURN / Return the hands upward and outward with control.

MAIN / RED
Latissimus contributes as the upper arms draw down toward the torso.

SECONDARY / BLUE
Shoulder, elbow and forearm muscles control the shown arm path and retained grip.

SUPPORT / GREEN
Trunk and hip muscles steady the shown support contacts.

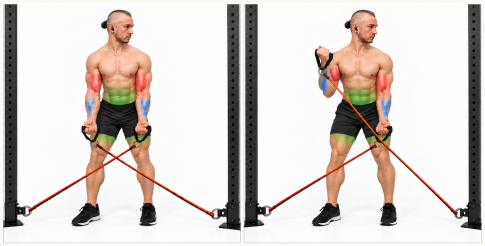

RESISTANCE BANDS

Day 3 / Back, rear delts + arms

Six band exercises / planned sets shown per exercise

4. Standing alternating low-front curl

1 planned set / 8-12 controlled repetitions

START / both handles low | FINISH / one elbow flexed

SETUP / Two independent handles; crossed low front lines.

MOVE / Curl one handle; keep the other low, then alternate.

RETURN / Lower the working handle before curling the other.

MAIN / RED
Biceps brachii, brachialis and brachioradialis bend the elbow.

SECONDARY / BLUE
Forearm muscles steady the grip; shoulder muscles maintain upper-arm position.

SUPPORT / GREEN
Trunk and hip muscles steady the standing posture; both feet form the base.

RESISTANCE BANDS

5. Supported high-front band curl

1 planned set / 8-12 controlled repetitions

START / elbow open | FINISH / elbow flexed

SETUP / One high front handle; free hand braces on stable plates.

MOVE / Bend the elbow to draw the handle toward the upper torso.

RETURN / Open the elbow and return forward/down under control.

MAIN / RED
Biceps brachii, brachialis and brachioradialis flex the working elbow.

SECONDARY / BLUE
Forearm muscles maintain grip; shoulder muscles control the upper arm. The free arm supports the torso.

SUPPORT / GREEN
Abdominal, spinal and hip stabilizers control the incline. Both feet and the support hand form the base.

RESISTANCE BANDS

6. Standing low-side forearm and grip rotation

1 planned set / 8-12 controlled repetitions

POSITION A | POSITION B

SETUP / Stand beside the low line; hold the red grip with one hand.

MOVE / Turn the forearm and grip while keeping the upper arm steady.

RETURN / Return the grip orientation slowly without swinging the arm.

MAIN / RED
Forearm muscles control rotation and the grip.

SECONDARY / BLUE
Upper-arm and shoulder muscles steady the working arm.

SUPPORT / GREEN
The stance and trunk steady the body.

RESISTANCE BANDS
