Exercise technique

Supported shoulder-blade control

6-10 easy repetitions

START / relaxed shoulders

FINISH / gentle blade control

SETUP / Stable box; hands resting on thighs; no band.

MOVE / Gently guide the shoulder blades toward one another.

RETURN / Release without shrugging or arching.

MAIN / RED
Middle trapezius and rhomboids gently retract the shoulder blades.

SECONDARY / BLUE
Posterior shoulder and rotator-cuff muscles help steady the arms while the shoulder blades move. Use a gentle movement, not a maximal squeeze.

SUPPORT / GREEN
box, feet and light trunk control maintain an upright seated position.

OPTIONAL PREPARATION / BODYWEIGHT
